

Andrieli Maahs Liebl

FRONT-END DEVELOPER

Transitioning from marketing to technology, I'm seeking my first opportunity to work as a programmer. Over the past year, I've dedicated all my efforts to studying skills such as HTML, CSS, JavaScript, TypeScript, jQuery, Bootstrap, Angular, and React. As a result, I'm looking for a front-end developer position with the prospect of continuously improving myself to build a strong career and become a reference in the field.

SKILLS

- Programming in **JavaScript, TypeScript, and Java**;
- Front-end development with **HTML and CSS**;
- knowledge with frameworks: **Bootstrap, Angular, and React**;
- Version control using **Git and Github**;
- Data integration with **RESTful APIs**;
- Experience with IDEs like **Visual Studio Code and IntelliJ**.
